BSA was also involved in the automotive industry dating back to 1907 and at one point owned the Daimler Company until 1960 when all automotive aspects of the company were sold to Jaguar Cars Ltd. A British manufacturer established in 1861, BSA was at one time the world's largest motorcycle producer before going defunct in 1972. Motorcycle Specifications, reviews, road tests History. BSA was founded in 1861 in the Gun Quarter, Birmingham, England by fourteen gunsmiths of the Birmingham Small Arms Trade Association, who had together supplied arms to the British government during the Crimean War. The 1968 MY BSA B44 Victor Special has, at its heart, a fourstroke, aircooled, 441cc, single cylinder engine paired to a fourspeed manual transmission that can produce a claimed 28 horsepower.

Power is from a 441cc B44 Victor Special single that was sourced from a 1968 model by a previous owner and is paired with a modified fourspeed manual transmission. A mechanical refurbishment under current ownership included refreshment of the engine and carburetor as well as replacement of the clutch, front brake shoes, and more. Alterations are said to consist of an improved oiling system, a lightened valvetrain, and a crankcase breather as well as a custom fork and triple trees. The bike has been used for Northern California rides such as the Moto Melee, the NorCal TT, and the Velocette Rally and was previously listed in an April 2020 BaT auction. This B25 is now offered again by the same seller at no reserve with an owner's manual, parts receipts, and a clean California title in the seller's name. The bike features a black frame, chrome fenders, and a black vinylupholstered seat with a rear hump. Suspension modifications are said to include a fork built using 2004 Yamaha R6 parts as well as custom 6061 aluminum triple trees. The stock fork, triple trees, and headlight ears are included in the sale. Approximately 6k miles are said to have been ridden on trips and rallies around Northern California under current ownership, though no odometer is present and total mileage is unknown. The seller has provided a video to demonstrate his engine starting technique. Other modifications performed by the seller are said to include improvement of the lubrication system, valvetrain lightening, a crankcase breather and catch can, a Nortonstyle oil filter, a clutch modified with extra friction surfaces, and more. The fourspeed manual transmission has reportedly been blueprinted and routes power to the rear wheel via a drive chain.

An owner's manual, parts lists, and a collection of spares are included in the sale. Attempting to connect. Missed updates will be sent once your connection has been reestablished. All Rights Reserved. It says 72 links. When looking through the owners manual it calls for 70 links. Which is right Should I send this one back The 70 link chain is for the C15, B25 and B40 which all have a smaller engine sprocket The owners manual says 70. The eBay auction said 72. Ive recieved the wrong chain more than once but finally found a 68 in Montreal, so they still exist. Cheers, Wilf. This is another BSA misprint like the torque setting for the crank pinion nut on early A65s. B44s definitely use a 72 link chain with a 28 tooth front sprocket. Activate Your Profile The lot and
